## EXPERIENCE

### General Assembly, remote — *Software Engineer Fellow*

September 2020 - January 2021

During this 12-week, 500+ hour career accelerator, I produced several full-stack projects, working individually and on a team. Covered front- and back-end programming fundamentals and trained in a variety of modern programming languages and technologies.

### Jackalope Brewing Company, Nashville, TN — *Specialty Brewer*

August 2014 - March 2020

- Created from grain to glass all Jackalope's core brand portfolio (about 10 beers) on a state of the art 30 bbl system from Sprinkman
- System troubleshooting (Brewhouse, fermentors, bright tanks, packaging line, chiller, mill)
- Responsible for overseeing the operation of the brewhouse

## PROJECTS

### Wizardly Questions — *Capstone*

- Created an app that allows users to ask questions and receive answers
- Full user authentication, CRUD, and API requests
- Tech used: JavaScript, React, Python, Django

### Music City Heaters — *Website for a 501c3*

- Local soccer supporters group for Nashville SC needed a website to provide information about the group for current and prospective members
- Created a website using React to provide an interactive experience for users
- Tech used: JavaScript, HTML, SASS

### Climbing Kings Bluff — *Full-Stack SPA*

- Full-stack SPA application allowing users to track climbing information from a local crag
- Full user authentication that gives the user full CRUD functions
- Tech used: JavaScript, jQuery, HTML, SASS, Express, MongoDB

## ABOUT

*Creative Professional with experience in team leadership, project management, and streamlining operations looking to launch a career in software engineering. Passions include problem solving, creative thinking, and team building.*
